

A Scientific Symposium Honoring Alan L. Schwartz, PhD, MD

Friday, October 28, 2016

8 a.m. – 4:45 p.m.

Eric P. Newman Education Center

- | | | | |
|---------------------------|---|-------------------------|--|
| 8:00 – 8:10 a.m. | Opening Remarks
Gary A. Silverman, MD, PhD
David H. Perlmutter, MD | 11:50 a.m. – | Lunch |
| 8:10 – 8:50 a.m. | Louis J. Muglia, MD, PhD
“Integrating Genomics and
Epidemiology to Understand
Preterm Birth” | 1:20 p.m. | Great Rooms A & B |
| 8:50 – 9:30 a.m. | Norman D. Rosenblum, MD, FRCPC
“Unravelling the Mysteries of
Renal–Urinary Tract Malformation:
Progenitors, Signals, Differentiation
and Translational Leads” | 1:20 – 2:00 p.m. | David F. Ransohoff, MD
“Why Is It So Hard to Discover
Molecular Markers for Cancer
Screening?” |
| 9:30 – 9:50 a.m. | Coffee Break
Atrium | 2:00 – 2:30 p.m. | Brigitte Gomperts, MD
“Maintaining Mucociliary
Clearance – The Critical Role of
Airway Basal Stem Cells” |
| 9:50 – 10:20 a.m. | Jeffrey E. Saffitz, MD, PhD
“Arrhythmogenic Cardiomyopathy:
Mechanisms, Diagnosis and Therapy” | 2:30 – 2:50 p.m. | Coffee Break
Atrium |
| 10:20 – 10:50 a.m. | Arnold W. Strauss, MD
“Mitochondrial Fatty Acid Oxidation:
From St. Louis to Cincinnati” | 2:50 – 3:30 p.m. | KEYNOTE ADDRESS:
Jeffrey I. Gordon, MD
“The Gut Microbiota and Childhood
Undernutrition: Looking at Postnatal
Development from a Microbial
Perspective” |
| 10:50 – 11:50 a.m. | NOBEL LAUREATE LECTURE:
Aaron J. Ciechanover, MD, DSc
“The Ubiquitin Proteolytic System –
From Basic Mechanisms thru Human
Diseases and on to Drug Development” | 3:30 – 4:00 p.m. | Kenneth S. Polonsky, MD
“The Genetic Architecture of
Type 2 Diabetes: Implications for
Personalized Medicine” |
| | | 4:00 – 4:45 p.m. | Margaret K. Hostetter, MD
“Heparin, the Engine of Central
Line Infections” |
| | | 4:45 – 5:30 p.m. | Reception
Atrium |
